

The Monty Sugar Glider Project

Project purpose

- to re-establish our sugar glider population.
- To engage the local community in becoming wildlife stewards.
- To create habitat links to nearby wildlife corridors

Why sugar gliders

Montmorency

A bit about Monty

What has happened so far

Current focus

Engaging the community

Threats to sugar gliders and other Monty Wildlife

- Phascogale on road photo

Solutions

Wildlife that could return to Monty

- Insects
- Small marsupials

Birds

How council could help

- Recognise work we are doing by Integrating our mapping into the VPO's
- Follow through with plans for Pecks Dam
- Support plantings in key areas of public land by schools etc, allow us/schools on land to water and weed
- Preserving and planting where needed eg vacant lots, reserves, walk throughs etc
- Develop an environmental plan with community input
- Stronger community stronger partnership
- Policing the vegie requirements for development permits, location of building in relation to trees
- Free trees

Where to from here

- Web page
- Boxes up in more reserves and local gardens
- Regular monitoring of contents
- Sugar glider spotlight evening - AGM 6.12.14
- Launch of bigger project - Monty Habitat Links
Refer Stepping Stones Habitat Links website
- School partnerships, tree planting, rope bridge
